

HEALTHCARE SOLUTIONS

Transforming Workspaces with Logitech and Ergotron

Together, Logitech and Ergotron deliver seamlessly integrated workspaces that enhance productivity, comfort, and collaboration for healthier and more interactive experiences in healthcare settings.

In today's rapidly changing healthcare environment, the integration of technology is essential for enhancing patient care and optimizing workflows. However, poorly integrated workspaces can impact the well-being of both clinicians and patients. To address this challenge, Logitech and Ergotron have collaborated to prioritize ergonomic solutions, ensuring that technology seamlessly integrates with healthcare spaces without compromising comfort or productivity.

Together, Logitech and Ergotron are revolutionizing healthcare workspaces. Join us in embracing the future of healthcare, where we facilitate seamless communication, streamline workflows, and improve clinician and patient experiences.

Redefining Healthcare Workspace Experiences

Embrace the future of healthcare with Logitech and Ergotron, where we foster seamless communication, streamline workflows, and enhance clinician and patient experiences.

Prioritizing the health and well-being of healthcare professionals within the work setting is paramount because it directly impacts the quality of patient care and overall organizational effectiveness. Together, Logitech and Ergotron deliver endless options and pairings for seamless environments that prioritize workplace comfort and productivity.

Our collaborative efforts emphasize both efficiency and well-being, ensuring healthcare professionals can operate at their best while maintaining good posture and movement. Explore our suggested pairings for healthcare environments:

Personal Workspaces: Elevate individual productivity and comfort by combining sit-stand workstations with ergonomic productivity tools. Explore the ergonomic pairing options below:

- Logitech Brio webcam #960-001105, Wave Keys keyboard #920-012058, Lift mouse (R) #910-006466, Zone Vibe headset #981-001198 with Ergotron Workfit-TL Standing Desk Workstation #33-406-085
- Logitech MX Brio 705 #960-001529, LogiDock #981-000513, Ergo K860 Split Keyboard #920-0091660, Ergo M575 Wireless trackball mouse #910-005867 with WorkFit-Z Mini, Standing Desk Workstation #33-458-917

Flexible Workspaces: Create a personalized and bookable space while freeing up desk space with adjustable monitor arm or relieve posture fatigue with a stand/sit desk paired with an auto-framing webcam that tracks as you stand and move freely. Explore the flexible workspace pairing options below:

- Logitech Brio 505 webcam #960-001522, LogiDock #981-000513, MX Keys Combo for Business Gen2 Ergotron #920-010923, WorkFit-TX Standing Desk Converter with height adjustable keyboard #33-467-921
- Logitech Brio 305 webcam, MK120 Corded Keyboard and Mouse Combo #920-002565, Logi Dock Flex #939-002154 and Ergotron LX Dual Side-by-Side Arm #45-245-026

Team Workspaces: Whether in a conference room or at a patient's bedside, bring interactive video conferencing to where it's needed most with Logitech's all-in-one video bars paired with Ergotron's media or telehealth carts.

- Logitech Rally Bar Mini #960-001563 and Ergotron Neo-Flex Mobile Media Center #24-192-085
- Logitech MeetUp #960-001101 and Ergotron StyleView Telepresence Cart #SV42-6302-1
