

DTEN D7X Series

A Multi-Platform Solution

Take Your Meeting Room into the Future

SOLUTION OVERVIEW

The AI-powered All-In-One DTEN D7X propels every meeting room into a modern meeting and collaboration workspace.

DTEN introduces the latest generation of video collaboration solutions, the DTEN D7X series, designed to deliver the ultimate video collaboration experience for Zoom, Microsoft Teams and other video meeting platforms. The DTEN D7X series is offered in two sizes (55" and 75"), with either an Android or Windows operating system.

Immersive Video Collaboration

The DTEN D7X is a 4K touch display that is ultra-thin and ultra-lightweight with a modern, sleek and award-winning all-in-one design. Enjoy crystal-clear conversations with room-filling sound and life-like video.

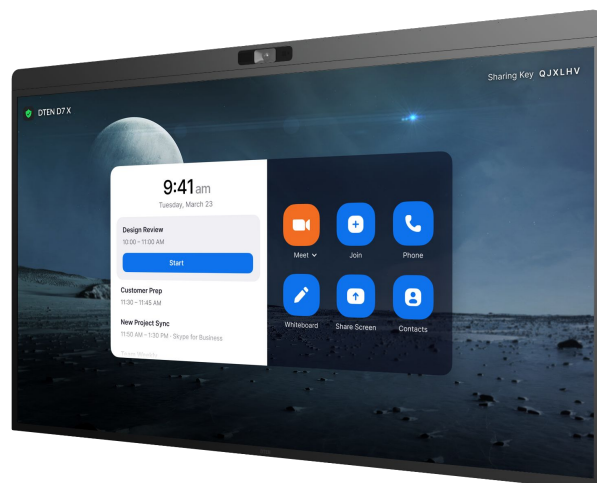

The D7X built-in camera system incorporates enhanced AI smart framing technology and an extra-wide field-of-view (FoV) to ensure everyone is seen clearly. Get the collaboration tools needed for successful brainstorming and project planning like advanced whiteboarding along with the ability to annotate documents and presentations in real time.

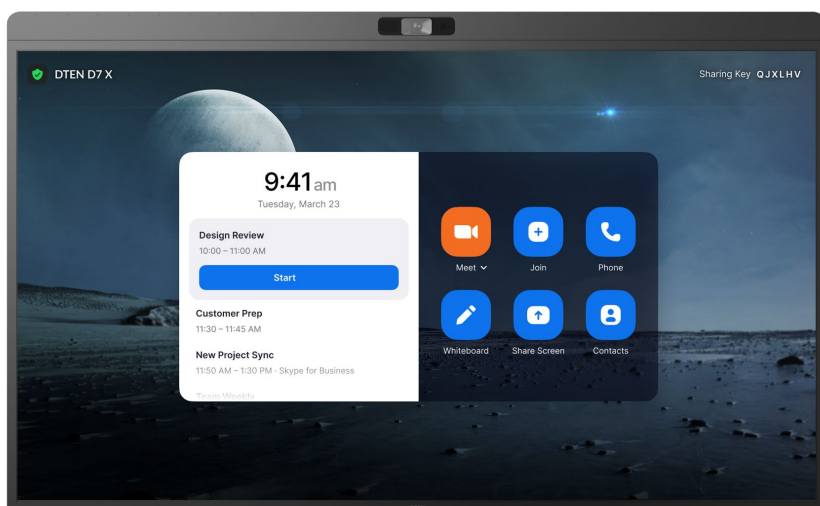

Multi-Platform Solution

With the D7X series, bring your own device (BYOD) and simply connect via a single USB-C cable to join a Microsoft Teams or virtually any other video conferencing meeting, all the while accessing DTEN D7X speakers, camera, microphones and touch display.

Device Certification

The DTEN D7X Android and Windows Editions are both in process for certification with Zoom Rooms and Microsoft Teams.

Unrivaled Performance

As a high performance solution, the DTEN D7X has upgraded computing power with the headroom to deliver exceptional meeting experiences today as well as tomorrow.

Advanced AI powered audiovisual, touch and wireless technologies produce inclusive, productive and life-like user experiences. Simply connect via a single USB-C cable and easily join any video meeting using the DTEN D7X camera, microphone, speaker, systems and touchscreen display.

DTEN D7X is an ideal choice for green energy initiatives with a 65-watt power supply.

Unparalleled Collaborative Touch

The DTEN D7X includes an all-in-one 4K touchscreen display. It is ultra-lightweight for easy mounting and ultra-thin for a sleek modern design.

DTEN D7X touchscreen technology lets you annotate directly on presentations and documents in real time and use advanced whiteboarding features to capture ideas, effortlessly share with team members and encourage greater collaboration and participation.

Key Product Features

All-in-One Video Meetings

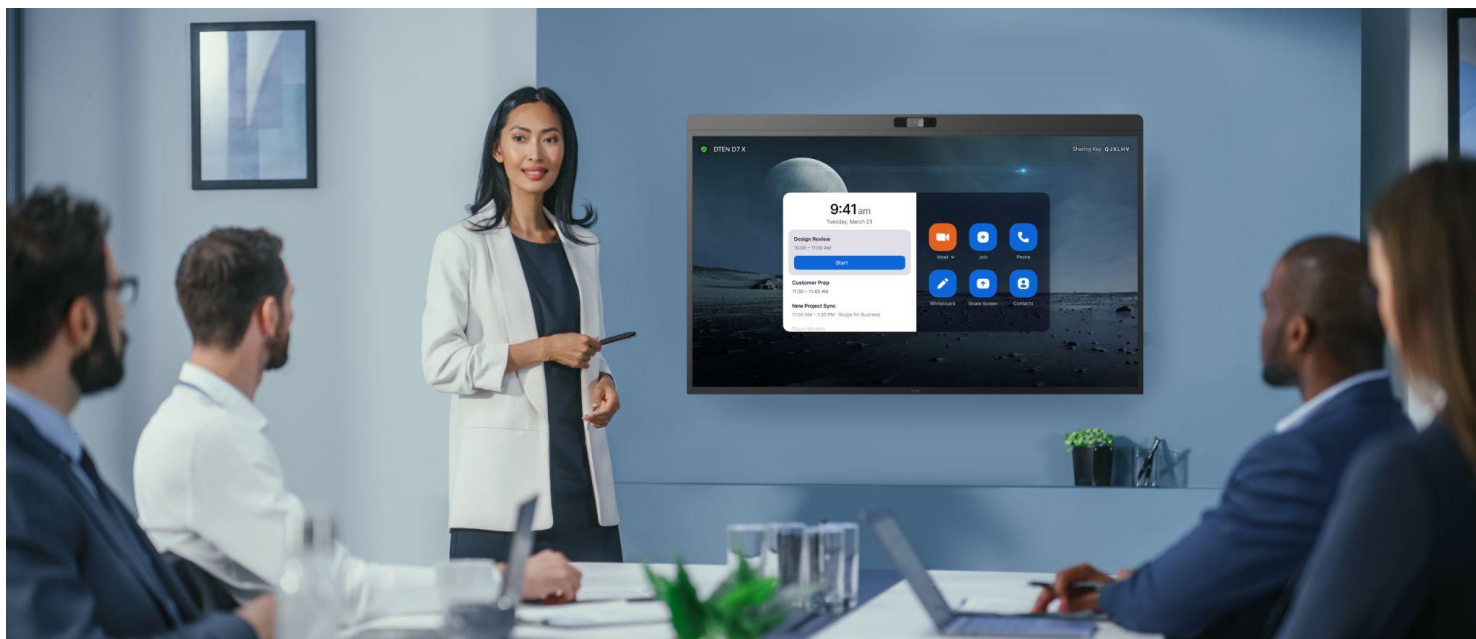

- Built-in camera, microphone, speakers and touchscreen display
- DTEN Smart Framing technology provides greater meeting equity for in-room and remote participants
- 1-touch to start Zoom Rooms meetings

DTEN Smart Connect

- Access the D7X's microphone, camera, speakers and touch screen systems as external peripherals via a single USB-C cable
- Bring Your Own Device (BYOD) to join Zoom Rooms, Microsoft Teams or virtually any video meeting
- DTEN Smart Connect provides touch-back control and power to attached devices

Built-in Collaboration Tools

- Easy content sharing for dynamic and engaging presentations
- Annotate shared documents and presentations in real-time
- Low-latency touchscreen whiteboarding for group brainstorming sessions
- Save and recall saved Zoom whiteboard sessions

Unmatched Flexibility

With the ability to support an additional screen, the DTEN D7X transforms meeting spaces into true collaboration zones.

Set up one screen as your meeting and another as your collaboration board or pair with DTEN ONboard for dedicated collaboration and presentation space.

The DTEN D7X can be wall mounted or placed on a cart and moved from room to room providing the optimal level of mobility and flexibility.

Powerful Network Security

Data security is an essential component of any video collaboration solution in today's video conferencing environment.

DTEN D7X offers secure connectivity and locks out meeting security threats by implementing the latest security and networking standards for a high-level cyber security posture.

High Performance

- 4K wide-angle (120 FoV) camera with auto framing and smart gallery support (Windows Edition)
- Intelligent 16-mic array for crystal-clear conversations
- 4K energy efficient touch display
- Ultra-light and ultra-thin design

Flexibility and Convenience

- All-in-One Design
- 55" & 75" Screen Sizes
- Wall mount or mount on a portable cart
- Native Zoom Rooms support
- Dual-screen enabled: supports an additional display for flexible screen configurations
- Available as Windows Edition or Android Edition

Multiple Room Sizes

The DTEN D7X is ideal for organizations needing to deliver exceptional meeting experiences with rich room filling sound and brilliant video resolution where team members can use the collaboration tools needed to make hybrid work successful.

Well-suited for a range of applications including executive offices, huddle spaces, medium and larger conference rooms or training centers

Complete Your Meeting Room

Add the **DTEN ONboard** companion whiteboard and collaboration display for dedicated whiteboarding and presentation space, while preserving the D7X display for face-to-face conversations with remote participants.

Combine with **DTEN Mate 10.1"** Zoom Rooms Controller at the table for added convenience to complete the Zoom Experience.

Add **DTEN Orbit** for easy device management.

Security

- State of the art security encryption protocols

AI-Powered

- Remote Device Management via DTEN Orbit Services
- Enhanced meeting equity with DTEN Smart Framing and native support for Zoom Rooms' Smart Gallery features
