

SPECIFICATION SHEET

4-Port USB 2.0 over Cat5 Extender

- Extends USB 2.0 signals up to 328 feet for 4 USB devices
- Uses a single standard network patch cable
- Supplies 500 milliamps of power at the receiver
- Powered with a single power supply at the transmitter or receiver

Specifications: 4-Port USB 2.0 over Cat5 Extender

General Specifications:

USB Specification:	USB 2.0
USB data bandwidth:	Up to 480Mbps
USB power output:	5 Volts, 500mA
Maximum extension distance:	328 feet (100 meters)

Power Adapter Specifications:

Input:	100-240V ~ 50/60Hz
Output:	24.0V DC, 100mA
Barrel diameter:	5.5mm
Center pin polarity:	Positive

Physical Characteristics:

Transmitter Connectors:	(1) USB B female (1) DC power female (1) RJ45 female
Receiver Connectors:	(4) USB A female (1) DC power female (1) RJ45 female

Part Number	Description
34020	4-Port USB 2.0 over Cat5 Extender
