

C2G 6ft (1.8m) Serial RS232 DB9 Cable with Low Profile Connectors M/F - In-Wall CMG-Rated Part No. CG-52157

Audio/Video installations in educational and commercial settings often require in-wall rated cable. Our CMG-rated line was specifically engineered to meet this requirement while overcoming common challenges faced by installers in these environments. Low-Profile connectors (1.25 in total depth) save valuable space in the gang box, while the rounded shape accommodates smaller monitor mounts so that the cable can be easily hidden from view.

Specifically designed to support RS-232/Serial communications, this cable is fully shielded to prevent unwanted EMI/RFI interference. The fully molded cable design delivers excellent strain relief, while connector thumbscrews provide a quick and easy connection every time.

The transmit and receive signals are crossed to ensure proper data transmission.

CMG-rated cables meet with many NEC requirements for Communications Cables - General Purpose In Wall Use . Our cables meet the following ratings: CMG, FT4 (Canada)

Features & Benefits

Features & Benef	its			
Designed to support RS-232/Serial communications		CMG-rated for in-wall u	CMG-rated for in-wall use	
Shielded to prevent unwanted EMI/RFI interference		Connector thumbscrews for a quick and easy connection		
Specifications				
General Info				
Product Line	C2G	Color	Black	
UPC Number	757120521570	Country Of Origin	Vietnam	
Features	RS232	Application Sector	Commercial, Industrial, Residential	
Warranty Type	Lifetime	Туре	Cable	
Dimensions				
Product Length US	6.0 FT	Cable Length	6 ft	
Technical Information	n			
Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	28 AWG	
Jacket Application	In-Wall Rated	Cable Type	Serial	
Jacket Rating	CMG Rated, FT4 Rated
