SEAMLESS KITTED

Universal dvLED Mounting System

FOR LATCHING DISPLAYS*

The Peerless-AV® SEAMLESS Kitted Series Universal dvLED Mounting System features a slim, space-saving and versatile design. The DS-LEDUNV is adaptable and supports latching dvLED displays. This kitted solution is also designed and built to your display specifications and then scaled to your video wall configuration. The display adaptors and mount frame provide x, y and z axis adjustments to overcome uneven walls and to assure the video wall remains flat. The lightweight aluminum frame quickly attaches to the wall with assistance from the installer-friendly wall template, and the quick-connect clamps allow installers to easily attach the displays to the mount frame. Quickly and easily build the perfect dvLED video wall for a corporate lobby, retail display, sportsbook, concert hall, casino, and much more with Peerless-AV's Universal dvLED Mounting System.

- Open architecture provides ease of cable management
- Optional Trim Kit Accessory is compatible with most displays (DS-LEDTK Models)

*Please contact a Peerless-AV® Sales Representative for the current list of compatible latching dvLED display models.
