

Heckler

The Modern Modesty Panel

**Modesty Panel
for Heckler Lectern
H901**

Heckler

Heckler

The innovative design of Heckler Lectern creates a modern look for teaching tables, podiums, and lecterns. The boxy particle board structures are gone, replaced by a modular modesty panel design that appears to float in mid-air.

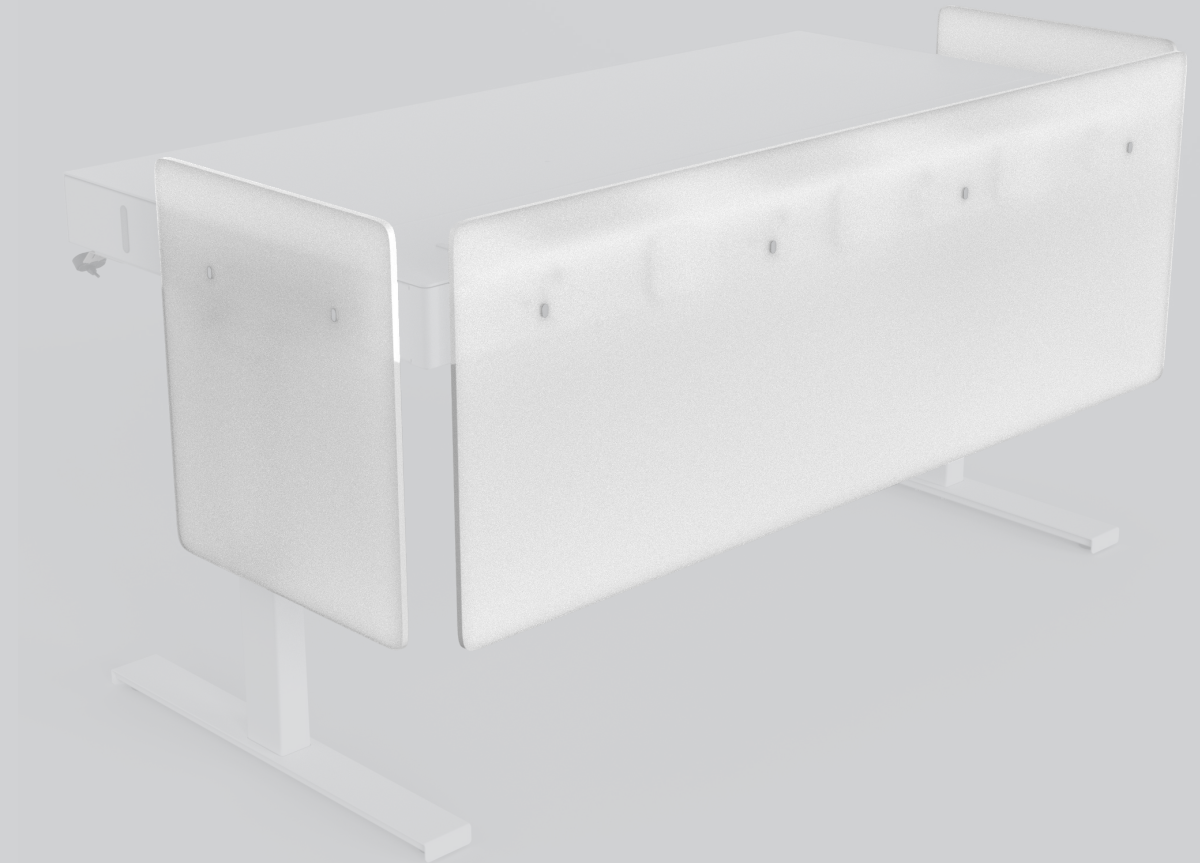

Features

The frosted cast acrylic panels diffuse and obscure the visibility of the instructor, cabling, and desktop contents.

Each Modesty Panel is easily installed by one person in seconds - without tools.

Modesty panel sets are modular and sold separately from the Heckler Lectern to enable customization and last-mile installation.

The front panel can be customized with full-color emblems and logos.
