

BT8590

XXL FLAT SCREEN CART

As part of B-Tech's Designer Cart range, the BT8590 is a high-end mobile mounting solution ideal for extra large screens such as the LG 110" UM5J Signage Display. The BT8590 has a modern, contemporary look with integrated cable management that keeps the finished installation looking neat and tidy. Non-marking 4" braked castors allow the cart to be re-located easily and safely without marking or scuffing floor surfaces and safety screws help prevent the easy removal of the screen. AV components such as shelves can be accessorized to the cart by fitting directly to the column or rail.
