SYSTEM X™ INTERFACE ARMS WITH MICRO-ADJUSTMENT

BT8390-VESA400MAF interface arms have been designed to securely mount medium to large screens onto System X horizontal mounting rails, ideal for creating videowalls and other multi-screen setups. The universal design ensures compatibility with all videowall screens and enables a wide array of configurations in landscape and portrait orientations. Effortless toolless micro-adjustment guarantees precise display alignment, all within an impressively slim 3.38" mounted depth, providing a sleek, close-to-the-wall installation.
