

IDEAL FOR
RETAIL
INSTALLS

BT8380-FFB

BOLT DOWN FLOOR BASE

Designed to securely fix System X installations to the floor, the BT8380-FFB Bolt Down Floor Base attaches directly to any BT8380 vertical column to create a fixed position mounting solution with a minimal footprint. Using a 6mm thick steel plate, this base is strong enough to support loads of up to 200kg per column and is ideal for installations where floor space is limited, such as retail applications which require screens to be mounted closer to walls or shop windows.

SPECIFICATION

Max Load	200kg per column*
Plate Thickness	6mm
Base dimensions	W: 240mm D: 240mm H: 6mm
Colour	Black

*No more than 100kg should be mounted at a height above 1.2m

FEATURES

- Small footprint is ideal for retail applications where floor space is limited such as in shop windows or for close to the wall displays
- Heavy duty steel capable of supporting substantial loads
- High-end aesthetic quality
- Ideal for retail applications where floor space is limited such as in shop windows or for close to the wall displays
- Can be used for large scale videowall installations in straight or curved configurations - ideal for applications such as control rooms
