FLAT SCREEN WALL MOUNT
WITH SLIDE-OUT AV STORAGE TRAY

The BT7883 is a screen mounting solution with an integrated slide-out tray for storing AV equipment behind the screen. Featuring a quick-release equipment plate that can be separated from the mount, AV equipment can be easily added or removed from the installation without needing to remove the screen first. The tray mechanism is tool-less for ease and speed of use, with the option to add a padlock to help prevent unauthorized access to the equipment. An integrated cable management track moves in unison with the tray to ensure cables do not get tangled or pinched when the tray is opened and closed. The BT7883 is suitable for wall mounting and B-Tech's System 2 poles and System X/Mode-AL columns.
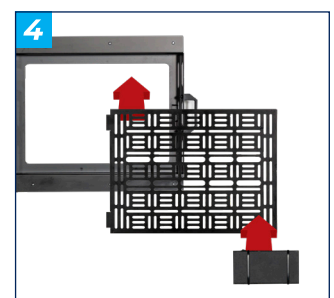

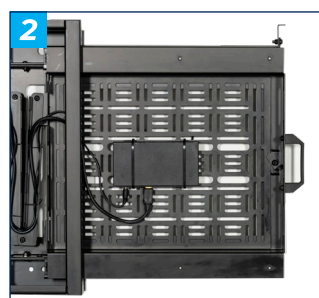

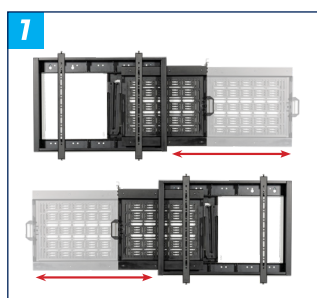

SPECIFICATIONS

|	
Recommended screen size	**46" - 75"**
Max screen weight	**154lbs**
VESA® & non-VESA fixings	up to **600** x **400**
Depth from wall	**3.93"**
