

ZLX-15-G2 15" 2-way passive speaker

- Includes 55-degree monitor angle plus 23-degree kickback angle.
- Recommended to use with Dynacord DSP power amplifiers.
- SONICUE integration - optimized speaker settings for best performance.
- Connections easily accessible even in monitor position.

ZLX-G2 loudspeakers are offered in 8, 12, and 15-inch woofer sizes.

Building on the tried and tested ZLX series, ZLX-G2 loudspeakers feature an improved angled cabinet design allowing for a 55-degree monitor angle. 12 and 15-inch models additionally include a “kickback” 25-degree monitor angle.

ZLX-G2 loudspeakers offer the best-in-class acoustic output. Electro-Voice patented SST baffle design ensures improved bass, small size, and even coverage across all frequencies.

ZLX-15-G2 uses industry standard NL4 connections. The two NL4 connectors are in parallel and pass through all pins.

For optimal acoustics and performance, ZLX-15-G2 is recommended to be used with a Dynacord DSP power amplifier programmed with the appropriate speaker settings included in the ZLX-G2 Database for SONICUE. ZLX-G2 family accessories such as padded covers, a U-bracket for wall mounting 12- and 15-inch models, and short and long wall mount brackets for use with the speaker pole mounts are available.
