

# BT7852

## SYSTEM 2™ SWIVEL ADAPTOR FOR Ø50MM POLES

The BT7852 allows a screen or AV equipment mounted at the bottom of a 50mm pole to be swivelled 360°. Used in conjunction with the System 2 range of ceiling mounts, the swivel adaptor connects two BT7850 poles together and is an ideal component for a flat screen ceiling mount where the display needs to be repositioned in various directions once mounted. The swivel action features a moderate resistance to prevent any unwanted movement and has cable management holes for a tidy install.

### SPECIFICATIONS

Max load (Single Sided Screen)	<b>70kg</b>
Max load (Back-to-back)	<b>35kg</b> per screen
Swivel	<b>360°</b>
Steel thickness	<b>4mm</b>
Colour	<b>Black</b>

### FEATURES
