Working with Images in Keynote

- Use bars to edit your points
- It's just like using index cards during a speech
- Select bullets, numbers, letters, or images
- Use colors, bold, or strikethrough to emphasize text

Heckler

The Heckler Lectern provides ample space for integrating 6RU of components inside its desktop. If you require more than 6RU of component storage or need to mount components taller than 2RU, utilize our sleek expansion rack.

Features

6 rack units of contiguous component mounting.

Can be mounted to the Lectern's left or right side.

Designed to be visually obscured by modesty panels to preserve Lectern's light, modern esthetic.

Ample passive airflow provided by its open grid floor and open rear.

Locking, translucent cast acrylic front panel.

Easily mounts to Lectern's steel structure. No tools required.

10-32 threaded rack-mounting holes.

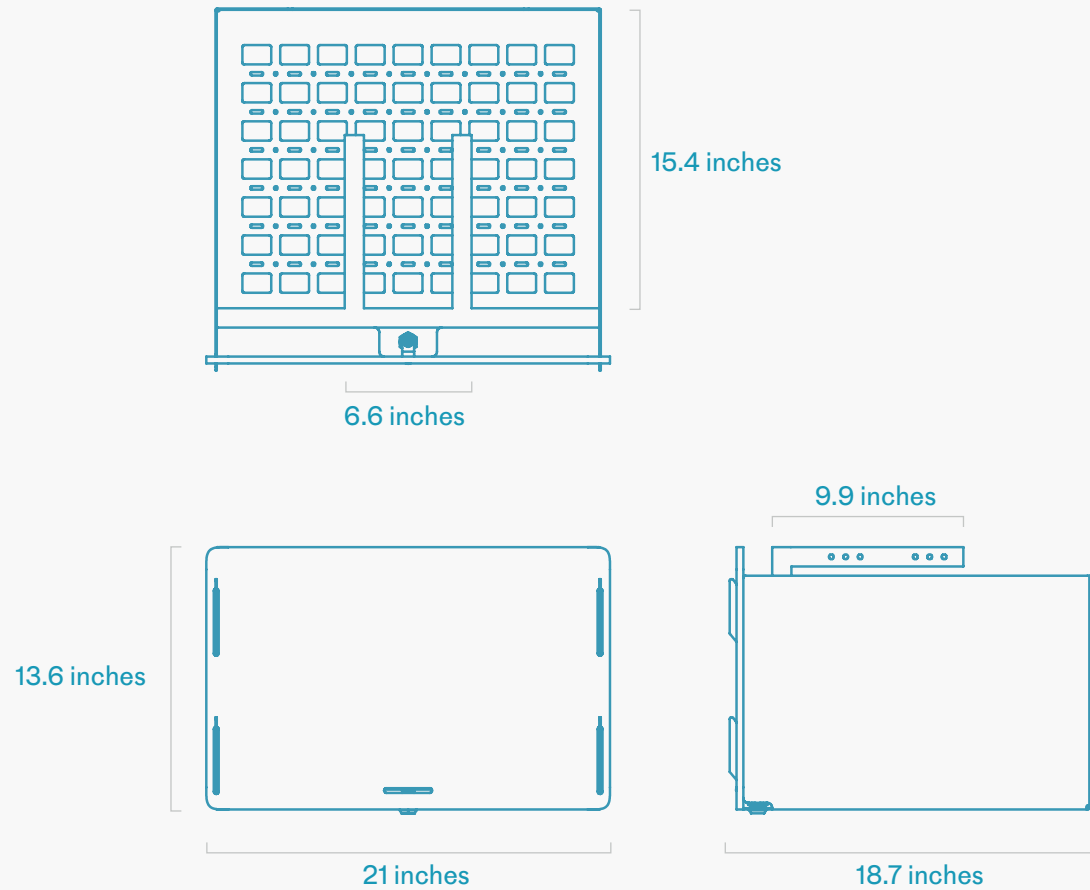

When installed, the remaining leg and chair space is accessible and ADA-compliant.

Heckler
