

C2G
6ft (1.8m) Wiremold® Uniduct 2800 Multipack (20-Pack) - White
Part No. CG-16078

We no longer directly offer these products. You can find it available to purchase with an account at [legrandav.com](https://www.legrandav.com) as part numbers 2800, 2800L8-FW, 2800L8, 2800L8-WH, 2800-FW, and 2800-WH.

Wiremold raceway is the ideal solution for routing and protecting fiber optic, UTP and other low voltage cabling- up to 50V. The Uniduct raceway features a co-extruded, flexible, PVC hinge that prevents cracking and splitting even after numerous openings and closings. The one-piece latch allows cabling to be secured within the raceway. The volume of this raceway will accommodate up to three Cat5e cables, two Cat6 cables, one Cat6a cable, two RG6/U coaxial cables or four zip cord fiber optic cables for 40% fill. This raceway is easy to install, and the smooth plastic finish, which is paintable using latex paint, ensures a match to the installation environment. Note: Uniduct series raceway is not UL listed and is only designed for use in protecting low voltage wiring and cabling.

Features & Benefits

One piece design with adhesive backing

Durable, flexible hinge construction

Impact-resistant PVC construction

TAA Compliant

Specifications
