TAA-COMPLIANT PREMIUM HIGH SPEED HDMI[®] CABLE WITH ETHERNET

This HDMI[®] cable meets stringent TAA compliant requirements and is approved for use in United States government projects and facilities. C2G Plus Series Premium High Speed HDMI[®] Cable with Ethernet has been tested to conform with the Premium HDMI[®] Cable Certification Program for best performance and ultra-reliability. It is perfect for connecting a wide variety of devices from computers to projectors and monitors, or any audio video applications requiring high speed HDMI[®] features and video resolutions up to 4K (4096 x 2160) at 60Hz.

This cable series offers features like 3D video, deep color, Dolby[®] True HD, DTS-HD Master Audio, and up to 32 audio channels for a multi-dimensional immersive audio experience. Simultaneously deliver dual video streams to multiple users on the same screen while delivering multi-stream audio to up to four users, giving a dynamic synchronization of video and audio streams. All these features will catch the audience's attention, providing a more realistic video experience.

These cables support the updated Consumer Electronic Control (CEC) commands library, allowing communication between devices connected through the HDMI[®] ports. The cable's Ethernet capabilities allow Ethernet-enabled HDMI[®] devices to access interactive online content or update device firmware. The gold-plated connectors on the cable allow for better shielding, increased electrical conductivity, and durability. Lastly, this fully functional, high bandwidth cable has been tested to perform at industry standards and is backed by a lifetime warranty.
