## VIA GO3

Compact & Secure 4K Wireless Presentation Device

---

VIA GO3 gives iOS, Android, Chromebook, PC, and Mac users instant wireless connectivity with 4K advanced presentation capabilities.

The product features content streaming with crystal-clear mirrored images and stunning video playback and includes iOS mirroring via AirPlay™, Windows & Android mirroring via Miracast™, as well as ChromeBook mirroring. The shared screen sizes are automatically adjusted based on their respective source, and can be resized manually by the user when needed.

VIA GO3 is super-compact (9x9cm) with flexibility to install with both built-in Wi-Fi and LAN connectivity and includes industry-leading 1024-bit encryption for secure use on the internal network

## FEATURES

---

3rd party Security Certification

Built-In isolated Wi-Fi and LAN

**Quick and Reliable Wireless Connectivity** - A simple and intuitive user interface enables iOS, Android, Chromebook, PC, and Mac device users to instantly connect to a main display without a dongle. 2.4GHz/5GHz Wi-Fi and MIMO antennas establish and maintain a fast and reliable connection

Automatically stops presentation when leaving the room

Calendar widget on the wallpaper for instant connectivity within one click

**3rd Party Web Applications** - Run directly from the device without needing to use the application

**Simultaneous Display** - Two participants can simultaneously present content on main display

**VIA Product Integration** - Seamlessly compatible with VIA Site Management (VSM) Software & VIA Pad

**Easy and Flexible Installation** - With a super-compact 9x9cm form factor, it can be discreetly installed on the back of a display, projector or almost anywhere
