## CCTV CEILING MOUNT FOR A TILTED FLAT SCREEN & DOME CAMERA

The BT5963 is a CCTV ceiling mount designed for a small to medium-sized dome security camera and a small, tilted flat screen display. Available with a 1 or 2 metre ceiling drop, the BT5963 features integrated cable management allowing cables to run through the centre of the pole and out through either the top or side of the ceiling mount, ensuring finished installations are neat and tidy. For longer drops, the pole length can be extended with a joiner (BT5924) and additional poles (BT5935) from the System V Range, whilst accessories such as a flat screen can be added with the use of a  $\varnothing 38\text{mm}$  accessory collar (BT5952) and compatible screen mount.
