

# ThinkSmart Core Kits with Microsoft Teams Rooms

Scalable, configurable, complete  
modular room solutions from Lenovo

Smarter  
technology  
for all

Lenovo

The new ThinkSmart Core Kits from Lenovo have everything you need to create more immersive collaboration spaces—all in one box.

Each kit comes with ThinkSmart Core, a compute powered by 11<sup>th</sup> Gen Intel® Core™ vPro™ processors with Intel® Iris® Xe graphics for optimized business productivity and collaboration. Also included is ThinkSmart Controller, a 10.1-inch, 10-point touch HD display with anti-glare and anti-fingerprint coating.

## EASY TO CHOOSE

ThinkSmart Core Kits fit any room size or configuration. For spaces with A/V installed, choose the ThinkSmart Core + Controller Kit. For spaces without A/V installed, choose ThinkSmart Core Full Room Kits for industry-leading audio and video components.<sup>1</sup> All hardware, software, management, and support services come included with your purchase—and it's all shipped in one box no matter which room kit you choose.

## EASY TO USE

These kits are built on the familiar Microsoft Teams Rooms platform, which includes one-touch calling and other features that allow users to easily initiate and control meetings, and collaborate and communicate securely with colleagues in other locations.

## EASY TO MANAGE

IT teams can monitor, manage, and troubleshoot ThinkSmart Core Kits remotely using pre-loaded ThinkSmart Manager software.<sup>2</sup> These kits also come bundled with one year of Smart Collaboration Professional Services Deploy and Maintain for personalized support during setup and ongoing maintenance.

## EASY TO TRUST

ThinkSmart Core runs on Windows® 10 IoT Enterprise for the stability businesses need. It also has multiple layers of built-in protection from Lenovo ThinkShield and the Intel® vPro® platform, which provides the world's most comprehensive hardware-based security for business.
